

SAFETY MANUAL AND TRAINING ACKNOWLEDGMENT

I hereby acknowledge that I have been advised by the Store Leader(s) that a copy of the Safety Manual of the Company (which includes the Hazard Communication Program) dated as of November 2017 is located in the main office in the restaurant, that I have access to it and am entitled to a copy of it at any time, and that I have been instructed to read it and to ask any questions that I may have about it.

I further acknowledge that any questions I presently have concerning the Safety Manual and/or any safety procedure have been fully answered by leadership.

I acknowledge that I have gone through a training class that covered every potentially hazardous chemical as well as the MSDS fact sheet that goes with it.

I agree that I will abide by the safety rules, regulations, guidelines, and policies of the Company, and am subject to discipline up to and including termination of employment if I fail to do so. I further understand that the contents of the Safety Manual may be unilaterally amended, added to or deleted without prior notice. I also understand the Safety Manual does not constitute a contract of employment between the company and me.

Finally, I agree to see a Leader if I have any questions.
